**Dear Cyborgs: A Novel** Eugene Lim

**A fractal fable about the possibility and power of protest as told by three superheroes on their lunch break**

In a small Midwestern town, two Asian American boys bond over their outcast status and a mutual love of comic books. Meanwhile, in an alternative or perhaps future universe, a team of superheroes ponders modern society during their time off. Between black-ops missions and rescuing hostages, they swap stories of artistic malaise and muse on the seemingly inescapable grip of market economics.

Gleefully toying with the conventions of the novel, *Dear Cyborgs* weaves together the story of a friendship's dissolution with a provocative and lively meditation on protest. Through a series of linked monologues, a surprising cast of characters explores narratives of resistance?protest art, eco-terrorists, Occupy squatters, pyromaniacal militants?and the extent to which any of these can truly withstand the pragmatic demands of contemporary capitalism. All the while, a mysterious cybernetic book of clairvoyance beckons, and trusted allies start to disappear.

Playfully blending comic-book villains with cultural critiques, Eugene Lim's *Dear Cyborgs* is a fleet-footed literary exploration of power, friendship, and creativity that recalls authors like Tom McCarthy and Valeria Luiselli. Ambitious and knowing, it braids together hard-boiled detective pulps, subversive philosophy, and Hollywood chase scenes, unfolding like the composites and revelations of a dream.
