**Theodore Gray's Completely Mad Science: Experiments You Can Do at Home but Probably Shouldn't: The Complete and Updated Edition** Theodore Gray

**The ultimate Theodore Gray collection, *Theodore Gray's Completely Mad Science* collects every one of Gray's dramatic, visually spectacular, and enlightening scientific experiments into one complete volume.**

Bestselling author Theodore Gray has spent more than a decade dreaming up, executing, photographing, and writing about extreme scientific experiments, which he then published between 2009 and 2014 in his monthly *Popular Science* column "Gray Matter."

Previously published in book form by Black Dog in two separate volumes (*Mad Science* and *Mad Science 2*), these experiments, plus an additional 5, are available now in one complete book.

*Completely Mad Science* is 432 pages of dazzling chemical demonstrations, illustrated in spectacular full-color photographs. Experiments include: Casting a model fish out of mercury (demonstrating how this element behaves very differently depending upon temperature); the famous Flaming Bacon Lance that can cut through steel (demonstrating the amount of energy contained in fatty foods like bacon); creating nylon thread out of pure liquid by combining molecules of hexamethylenediamine and sebacyl chloride; making homemade ice cream using a fire extinguisher and a pillow case; powering your iPhone using 150 pennies and an apple, and many, many more.

Theodore Gray is the author of *The Elements: A Visual Exploration of Every Known Atom in the Universe*; *Molecules: The Elements and the Architecture of Everything*; *Theo Gray's Mad Science: Experiments You Can Do at Home, But Probably Shouldn't*; and *Mad Science 2: Experiments You Can Do at Home, but Still Probably Shouldn't*. He lives in Urbana, Illinois.
