Nature-Inspired Optimization Algorithms (Elsevier Insights)

Xin-She Yang

Nature-Inspired Optimization Algorithms (Elsevier Insights) Xin-She Yang

Nature-Inspired Optimization Algorithms provides a systematic introduction to all major nature-inspired algorithms for optimization. The book's unified approach, balancing algorithm introduction, theoretical background and practical implementation, complements extensive literature with well-chosen case studies to illustrate how these algorithms work. Topics include particle swarm optimization, ant and bee algorithms, simulated annealing, cuckoo search, firefly algorithm, bat algorithm, flower algorithm, harmony search, algorithm analysis, constraint handling, hybrid methods, parameter tuning and control, as well as multi-objective optimization.

This book can serve as an introductory book for graduates, doctoral students and lecturers in computer science, engineering and natural sciences. It can also serve a source of inspiration for new applications. Researchers and engineers as well as experienced experts will also find it a handy reference.

- Discusses and summarizes the latest developments in nature-inspired algorithms with comprehensive, timely literature
- Provides a theoretical understanding as well as practical implementation hints
- Provides a step-by-step introduction to each algorithm

From reader reviews:

Jack Evans:

What do you concentrate on book? It is just for students because they are still students or the item for all people in the world, the particular best subject for that? Just simply you can be answered for that issue above. Every person has various personality and hobby for each and every other. Don't to be forced someone or something that they don't wish do that. You must know how great as well as important the book Nature-Inspired Optimization Algorithms (Elsevier Insights). All type of book can you see on many solutions. You can look for the internet resources or other social media.

Rose Cordeiro:

Does one one of the book lovers? If so, do you ever feeling doubt if you find yourself in the book store? Make an effort to pick one book that you never know the inside because don't ascertain book by its deal with may doesn't work the following is difficult job because you are scared that the inside maybe not as fantastic as in the outside look likes. Maybe you answer might be Nature-Inspired Optimization Algorithms (Elsevier Insights) why because the great cover that make you consider in regards to the content will not disappoint an individual. The inside or content is fantastic as the outside or even cover. Your reading sixth sense will directly assist you to pick up this book.

Adam Youngblood:

You can find this Nature-Inspired Optimization Algorithms (Elsevier Insights) by go to the bookstore or Mall. Simply viewing or reviewing it could to be your solve difficulty if you get difficulties to your knowledge. Kinds of this guide are various. Not only by simply written or printed but also can you enjoy this book by means of e-book. In the modern era including now, you just looking by your local mobile phone and searching what your problem. Right now, choose your personal ways to get more information about your reserve. It is most important to arrange yourself to make your knowledge are still update. Let's try to choose appropriate ways for you.

Cheryl Fisher:

That publication can make you to feel relax. This specific book Nature-Inspired Optimization Algorithms (Elsevier Insights) was vibrant and of course has pictures around. As we know that book Nature-Inspired Optimization Algorithms (Elsevier Insights) has many kinds or style. Start from kids until teenagers. For example Naruto or Private eye Conan you can read and feel that you are the character on there. Therefore not at all of book usually are make you bored, any it makes you feel happy, fun and rest. Try to choose the best book for you personally and try to like reading that.
