**A practical, protocol-based guide to the emerging field of neurocritical care – updated with the very latest research and developments**

The goal of neurological critical care is to rapidly deliver acute medical therapies and appropriate interventions through effective monitoring of both neurological and end organ function. *The NeuroICU Book* puts that goal within the reach of every neurologist and critical care specialist.

Thoroughly updated to keep pace with all the advances in this emerging field, the Second Edition combines the latest clinical perspectives in critical care medicine, neurology, and neurosurgery. This comprehensive, evidence-based text standardizes neurocritical care and takes readers through the rationale for those standards. Filled with detailed case studies and featuring a question-and-answer format, the book not only builds competency in recognizing acute changes in neurological function, but also addresses all organ insufficiencies and failures, reflecting the real-life challenges in the modern neuro-ICU.

- Robust, wide-ranging scope goes beyond classic neurology to encompass other organ failures at the time of presentation or during the ICU stay
- Evidence-based approach leverages the scientific and controlled research that supports the key treatment methods outlined in the book
- Practical tools including algorithms, tables, illustration, photographs, detailed references, and critical take-home points

**From reader reviews:**

**Sheila Donovan:**

Do you have favorite book? Should you have, what is your favorite's book? Reserve is very important thing for us to be aware of everything in the world. Each publication has different aim as well as goal; it means that publication has different type. Some people feel enjoy to spend their time to read a book. These are reading whatever they have because their hobby is actually reading a book. What about the person who don't like studying a book? Sometime, particular person feel need book once they found difficult problem or maybe exercise. Well, probably you'll have this The NeuroICU Book, Second Edition.

**Dan Morris:**

Information is provisions for anyone to get better life, information nowadays can get by anyone on everywhere. The information can be a information or any news even a concern. What people must be consider when those information which is in the former life are challenging be find than now could be taking seriously which one would work to believe or which one the particular resource are convinced. If you get the unstable resource then you understand it as your main information you will see huge disadvantage for you. All those possibilities will not happen within you if you take The NeuroICU Book, Second Edition as your daily resource information.

**David Hosford:**

That e-book can make you to feel relax. This particular book The NeuroICU Book, Second Edition was colorful and of course has pictures around. As we know that book The NeuroICU Book, Second Edition has many kinds or variety. Start from kids until teenagers. For example Naruto or Investigator Conan you can read and believe that you are the character on there. Therefore not at all of book are generally make you bored, any it offers up you feel happy, fun and chill out. Try to choose the best book to suit your needs and try to like reading in which.

**Loren Hatmaker:**

As a student exactly feel bored to help reading. If their teacher requested them to go to the library or even make summary for some book, they are complained. Just little students that has reading's spirit or real their interest. They just do what the teacher want, like asked to the library. They go to at this time there but nothing reading significantly. Any students feel that reading through is not important, boring as well as can't see colorful pics on there. Yeah, it is to become complicated. Book is very important to suit your needs. As we know that on this age, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. So , this The NeuroICU Book, Second Edition can make you feel more interested to read.
