Vi iMproved (VIM) Steve Oualline

Real Linux users don't use GUIs. No matter how popular, slick and sophisticated the interfaces become for Linux and UNIX, you'll always need to be able to navigate in a text editor. The vi editor is the original standard UNIX full screen editor. It's been around almost since UNIX began and it has changed very little. To get around the limitations of vi the people at Bram Moolenaar created the vim editor (the name stand for VI iMproved). It contains many more features than the old vi editor including: help, multiple windows, syntax highlighting, programmer support, and HTML support. All of the books published to date focus on vi alone not the expanded vim shipping with every major Linux distribution. In true New Riders' form, the vim reference will be a definitive, concise reference for the professional Linux user and developer. This tutorial takes a task oriented approach allowing you to learn only the commands that make your job easier.

From reader reviews:

Julie Gailey:

In this 21st millennium, people become competitive in every way. By being competitive at this point, people have to do something to make all of them survive, being in the middle of often the crowded place and notice through surrounding. One thing that sometimes many people have underestimated the idea for a while is reading. That's why, by reading a reserve your ability to survive increase then having chance to stay than other is high. To suit your needs who want to start reading some sort of book, we give you this kind of Vi iMproved (VIM) book as beginning and daily reading book. Why, because this book is usually more than just a book.

Alan Torrez:

Reading a reserve tends to be new life style with this era globalization. With looking at you can get a lot of information that can give you benefit in your life. Along with book everyone in this world may share their idea. Publications can also inspire a lot of people. A lot of author can inspire all their reader with their story or their experience. Not only the storyplot that share in the textbooks. But also they write about the information about something that you need example. How to get the good score toefl, or how to teach your children, there are many kinds of book which exist now. The authors on this planet always try to improve their expertise in writing, they also doing some study before they write on their book. One of them is this Vi iMproved (VIM).

Kathryn Robinson:

Reading a book to become new life style in this year; every people loves to examine a book. When you go through a book you can get a wide range of benefit. When you read textbooks, you can improve your knowledge, simply because book has a lot of information upon it. The information that you will get depend on what kinds of book that you have read. If you wish to get information about your research, you can read education books, but if you want to entertain yourself you are able to a fiction books, such as novel, comics, in addition to soon. The Vi iMproved (VIM) offer you a new experience in examining a book.

Marietta Allred:

Do you like reading a publication? Confuse to looking for your chosen book? Or your book has been rare? Why so many query for the book? But any kind of people feel that they enjoy with regard to reading. Some people likes reading, not only science book but additionally novel and Vi iMproved (VIM) or maybe others sources were given knowledge for you. After you know how the great a book, you feel need to read more and more. Science book was created for teacher or perhaps students especially. Those books are helping them to increase their knowledge. In additional case, beside science guide, any other book likes Vi iMproved (VIM) to make your spare time far more colorful. Many types of book like this one.
