Clinical Examination of the Shoulder, 1e Todd S. Ellenbecker DPT MS SCS OCS CSCS

Practical, clinically focused, and highly illustrated, this new guide includes content not covered in any other book, presented in a user-friendly format. Part I introduces the concepts of subjective evaluation, observation/posture, related referral joint testing, neurovascular testing, palpation, and range of motion testing. Part II comprises the bulk of the text, covering the major shoulder tests that clinicians perform. Part III features supplemental tests used in the clinical setting. Finally, Part IV pulls all the information together by testing students and clinicians alike with a series of case studies. The reader will also find extensive, up-to-date references for further research or study.

- The first text devoted solely to the musculoskeletal examination of the shoulder joint.
- Emphasizes research and objectivity, providing easy access to current research quantification of test procedure efficacy indication and clinical application.
- Contains an exhaustive review of examination and clinical tests, leading to a more accurate diagnosis and better course of care.
- Presents a combination of clinical tests, functional evaluation parameters, throwing and interval sport return/evaluation procedures, as well as seldom-presented closed chain tests, offering the practitioner a plethora of alternative tests.
- Highlights new tests for the shoulder, particularly in the area of labral and instability testing.
- Places a high degree of emphasis on documentation of test results, increasing the reader's objectivity of the shoulder exam process.
- Includes various combinations of patient presentation, emphasizing classic diagnoses and the combinations of test results from the evaluation procedures covered in the text. Case studies permit readers to test themselves and apply their knowledge to varied situations.

The inside or content is usually fantastic as the outside or perhaps cover. Your reading sixth sense will directly show you to pick up this book.

Michelle Garrett:

In this period of time globalization it is important to someone to find information. The information will make anyone to understand the condition of the world. The condition of the world makes the information better to share. You can find a lot of sources to get information example: internet, newspapers, book, and soon. You will observe that now, a lot of publisher this print many kinds of book. Typically the book that recommended for your requirements is Clinical Examination of the Shoulder, 1e this publication consist a lot of the information in the condition of this world now. That book was represented so why is the world has grown up. The vocabulary styles that writer require to explain it is easy to understand. Typically the writer made some investigation when he makes this book. That's why this book acceptable all of you.

Todd Apperson:

As a student exactly feel bored to help reading. If their teacher questioned them to go to the library in order to make summary for some guide, they are complained. Just small students that has reading's heart or real their leisure activity. They just do what the instructor want, like asked to the library. They go to presently there but nothing reading critically. Any students feel that looking at is not important, boring in addition to can't see colorful pics on there. Yeah, it is for being complicated. Book is very important for yourself. As we know that on this period of time, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. So , this Clinical Examination of the Shoulder, 1e can make you feel more

interested to read.
