Chosen: A Paranormal, Sci-Fi, Dystopian Novel (Volume 1) A Bernette

Chosen is the first book of the Chosen Series. It is 2165 and Earth is owned by corporations and a one-world government corrupted by power. Those who've held power, money, and control for millennia are in an even stronger position to leverage that power to save only themselves, at any cost. Pollution driven into the earth puts the planet at risk of deadly disasters and threatens to tear it apart, along with the stability of an ordered system. Hope for the future rests with a group of diverse teens genetically engineered before birth and chosen from around the world to save Earth and its people. Our heroes are forced to choose between the rules made by those in power and their moral obligations to the planet and its people in order to combat what lies ahead. An intricate and thoughtful book that pushes into both the science-fiction, dystopian, and paranormal (metaphysical) realms. You'll be pulled in by the world-building, the Chosen, and what comes next. Our heroes must choose between the rules made by those in power and moral obligations to the planet and its people. ----- Additional Info: This metaphysically paranormal, sci-fi novel is a multiculturally relevant book for current times. In book 1 the heroes see the issues plaguing the planet. The epic saga continues in books 2 and 3 (currently being edited) when they understand what makes them special, go through the Awakening Ceremony, and develop their talents to later face the powers that be. This is A. Bernette's debut novel and she hopes to receive honest reviews and feedback. She has completed the drafts of books 2 and 3 in the series. While they are in different stages, she intends to publish book 2 sometime in 2017. For More Information visit: www.Bernette.net/Chosen
