The Physics of Jesus Christ

The content of this book is a most fascinating and intriguing journey into the Life force of this Universe.

The subject matter studies not only the Universe at large, using scriptural (Biblical) references, but also how and why the Life force applies to us... and we apply to it.

This book delves into vibrational and light theories and lays out how and why Spirit is a most unrealized potential for bettering our everyday lives.

This book also takes the reader on a very old, but brand new, look at what and who Jesus the Christ actually is.

Anyone and everyone will find great benefit from assimilating the knowledge in this book. It is written in a format that is not difficult or alienating to the reader, no matter what the background.

Whether you are Christian, Pagan, Buddhist, Atheist, or whatever, you will come away from this book with a new perspective on just how real and tangible the Life force of this Universe is and how it may be harnessed to bring about a better life for you and all those around you.

This book will assist you in "coming up to speed" with regards to the timeframe we all live in. It is easily 800 years overdue

We wish you all the best!
