A willow grove by a creek in Northern California inspired these 32 poems, written in 25 poetic forms, including villanelle, sestina, sonnet, limerick, ballad, and ottava rima. Illustrated with 19 line drawings by the author, this book explores deep kinship among animals, plants, and spirits. Its simplicity and details will delight naturalists, while its depth of mystery will satisfy deep ecologists. The author's reverence for non-human consciousness will inspire everyone who longs for personal and planetary healing.
