Red Hat? Linux? 6 Server Mohammed J. Kabir

Red Hat® Linux® 6 Server The open-source Linux operating system is gaining ground fast in businesses and universities around the world, and many commercial versions of the software make it reliable and user-friendly enough for any organization. In Red Hat Linux 6 Server, Unix expert Mohammed Kabir shows you step-by-step how to deploy Linux servers for your intranet or the Internet, from initial installation through security implementation and performance fine-tuning. In-depth coverage of the issues you'll face, plenty of real-world examples, an easy-to-understand guide to common commands, and a comprehensive listing of Linux resources on the Internet make this an indispensable resource, whether you're working for a small nonprofit or a large corporation. Working Solutions for the Linux 6 Server:

- Master the ins and outs of Linux installation and configuration
- Manage privileged and ordinary users, groups, and disk quotas
- Control, monitor, prioritize, and automate programs
- Set up DNS, SMTP, POP3, HTTP, FTP, IRC, and SQL servers
- Secure your server using firewalls and tools such as SATAN and COPS
- Design a load-balanced, multiserver Apache-based Web network
- Set up Samba and NFS fileserver for your office network

Bonus! CD-ROM with Complete Linux Distribution, including:

- Linux Kernel 2.2.5
- Installation and configuration tools
- GNOME and KDE graphical user interfaces
- Full TCP/IP networking
- Dial-up networking tools for ISP access
- Complete suite of Internet applications, including e-mail, news, and Telnet
- Apache Web Server 1.3.6
- Netscape Communicator 4.51
- And much more

From reader reviews:

Ebony Lower:

Spent a free the perfect time to be fun activity to do! A lot of people spent their leisure time with their family, or their own friends. Usually they performing activity like watching television, gonna beach, or picnic inside park. They actually doing ditto every week. Do you feel it? Do you want to something different to fill your own free time/ holiday? Could be reading a book might be option to fill your cost-free time/ holiday. The first thing that you will ask may be what kinds of e-book that you should read. If you want to test look for book, may be the reserve untitled Red Hat? Linux? 6 Server can be very good book to read. May be it might be best activity to you.

Richard Twombly:

People live in this new day time of lifestyle always make an effort to and must have the extra time or they will get great deal of stress from both lifestyle and work. So , if we ask do people have free time, we will say absolutely without a doubt. People is human not really a robot. Then we inquire again, what kind of activity do you possess when the spare time coming to you actually of course your answer will certainly unlimited right. Then ever try this one, reading publications. It can be your alternative throughout spending your spare time, the particular book you have read is usually Red Hat? Linux? 6 Server.

Barbara Simon:

Many people spending their time by playing outside with friends, fun activity having family or just watching TV all day every day. You can have new activity to spend your whole day by looking at a book. Ugh, do you think reading a book really can hard because you have to take the book everywhere? It fine you can have the e-book, having everywhere you want in your Mobile phone. Like Red Hat? Linux? 6 Server which is keeping the e-book version. So , try out this book? Let's find.

Christopher Palmer:

Is it anyone who having spare time after that spend it whole day by watching television programs or just lying down on the bed? Do you need something new? This Red Hat? Linux? 6 Server can be the response, oh how comes? A book you know. You are therefore out of date, spending your free time by reading in this completely new era is common not a nerd activity. So what these books have than the others?
