Advanced Statistical Methods in Data Science (ICSA Book Series in Statistics)

Advanced Statistical Methods in Data Science (ICSA Book Series in Statistics)

This book gathers invited presentations from the 2nd Symposium of the ICSA- CANADA Chapter held at the University of Calgary from August 4-6, 2015. The aim of this Symposium was to promote advanced statistical methods in big-data sciences and to allow researchers to exchange ideas on statistics and data science and to embrace the challenges and opportunities of statistics and data science in the modern world.

It addresses diverse themes in advanced statistical analysis in big-data sciences, including methods for administrative data analysis, survival data analysis, missing data analysis, high-dimensional and genetic data analysis, longitudinal and functional data analysis, the design and analysis of studies with response-dependent and multi-phase designs, time series and robust statistics, statistical inference based on likelihood, empirical likelihood and estimating functions. The editorial group selected 14 high-quality presentations from this successful symposium and invited the presenters to prepare a full chapter for this book in order to disseminate the findings and promote further research collaborations in this area. This timely book offers new methods that impact advanced statistical model development in big-data sciences.

From reader reviews:

Lori Leavitt:

Do you have favorite book? For those who have, what is your favorite's book? Publication is very important thing for us to find out everything in the world. Each reserve has different aim or maybe goal; it means that guide has different type. Some people feel enjoy to spend their time for you to read a book. These are reading whatever they acquire because their hobby is definitely reading a book. Why not the person who don't like looking at a book? Sometime, man or woman feel need book after they found difficult problem or maybe exercise. Well, probably you will require this Advanced Statistical Methods in Data Science (ICSA Book Series in Statistics).

Marvin Smith:

Does one one of the book lovers? If yes, do you ever feeling doubt while you are in the book store? Attempt to pick one book that you just dont know the inside because don't determine book by its protect may doesn't work the following is difficult job because you are scared that the inside maybe not as fantastic as in the outside search likes. Maybe you answer could be Advanced Statistical Methods in Data Science (ICSA Book Series in Statistics) why because the great cover that make you consider with regards to the content will not disappoint anyone. The inside or content is definitely fantastic as the outside or perhaps cover. Your reading 6th sense will directly make suggestions to pick up this book.

Bruce Jackson:

This Advanced Statistical Methods in Data Science (ICSA Book Series in Statistics) is great e-book for you because the content and that is full of information for you who also always deal with world and have to make decision every minute. This kind of book reveal it facts accurately using great arrange word or we can declare no rambling sentences in it. So if you are read it hurriedly you can have whole facts in it. Doesn't mean it only provides you with straight forward sentences but tricky core information with wonderful delivering sentences. Having Advanced Statistical Methods in Data Science (ICSA Book Series in Statistics) in your hand like getting the world in your arm, facts in it is not ridiculous a single. We can say that no guide that offer you world in ten or fifteen moment right but this guide already do that. So , this is certainly good reading book. Hey there Mr. and Mrs. active do you still doubt in which?

Jerry Ingle:

That publication can make you to feel relax. That book Advanced Statistical Methods in Data Science (ICSA Book Series in Statistics) was colourful and of course has pictures on there. As we know that book Advanced Statistical Methods in Data Science (ICSA Book Series in Statistics) has many kinds or type. Start from kids until teenagers. For example Naruto or Private investigator Conan you can read and think that you are the character on there. So , not at all of book are generally make you bored, any it makes you feel happy, fun and rest. Try to choose the best book for you personally and try to like reading in which.
