Photographers have been bringing images of the Arctic to a fascinated public since the nineteenth century. *Imaging the Arctic* is the first general account of the photography of the indigenous peoples of the North American Arctic. Bringing together Native and non-Native photographers, archivists, and anthropologists, this volume explores both the aesthetics and the content of Arctic photographs. Issues about the power and meaning of photographs are addressed from a number of different perspectives: the history and technology of the medium, gender, various genres, the links between photography, film, and the arts, and the contrasting approaches of Native and non-Native and personal and official photographers.
