In Detail

Microsoft Dynamics GP 2013 is a sophisticated enterprise resource planning system with a multitude of features and options. Microsoft Dynamics GP enables you to create and manage a variety of reports that can help your organization effectively manage its financial and operational data.

"Microsoft Dynamics GP 2013 Reporting, Second Edition" will show you how to create and manage reports, know what tools to use and when, how to use these tools, and where to find the data based on how it's being entered into the system with Dynamics GP.

This book addresses the many challenges and frustrations a company may face when preparing to build new reports. You will learn how to find and locate your data in the GP system and company databases. It then dives deep into topics such as SmartLists, SL Builder and Excel Report Builder, Report Writer, Word Template Generator, SSRS Report Library, Business Analyzer, Analysis Cubes Design, and Management Reporter, amongst others.

With this knowledge in hand, you will be capable of selecting the most effective tool for the current reporting environment.

Approach

A practical guide to creating and managing reports as well as identifying the most appropriate reporting tool for any reporting challenge, this book employs real-life, step-by-step examples in a part tutorial, part reference manner.
