The International Library of Essays on Capital Punishment, Volume 2: Abolition and Alternatives to Capital Punishment Peter Hodgkinson

The essays selected for this volume develop conventional abolition discourse and explore the conceptual framework through which abolition is understood and posited. Of particular interest is the attention given to an integral but often forgotten element of the abolition debate: alternatives to capital punishment. The volume also provides an account of strategies employed by the abolition community which challenges tired methodologies and offers a level of transparency previously unseen. This collection tackles complex but fundamental components of the capital punishment debate using empirical data and expert observations and is essential reading for those wishing to comprehend the fundamental issues which underpin capital punishment discourse.
