Excerpt from The Catalpa Expedition: With Illustrations

One hundred years after the Declaration of Independence, an American whaling captain, George S. Anthony, commemorated the event by enforcing another declaration of independence which set free the Irish political prisoners who were sentenced to a lifetime of servitude in the English penal colony in Australia.

The story of the rescue of these prisoners in 1876 is a brave incident of history which has hitherto been told too briefly. When Captain Anthony, commanding the bark Catalpa, landed the men for whose relief the expedition was planned, at New York, public interest in the romantic voyage was very intense. The boldness of the raid upon the English colony and the remarkable features of the conspiracy, excited universal curiosity concerning the details of the affair.

At that time international complications seemed certain, and there were many reasons why those concerned in the rescue furnished only meagre information of the inception of the plan and its progress during the two years which were spent in bringing it to a successful consummation.
