Linear Algebra Done Right (Undergraduate Texts in Mathematics) Sheldon Axler

This best-selling textbook for a second course in linear algebra is aimed at undergrad math majors and graduate students. The novel approach taken here banishes determinants to the end of the book. The text focuses on the central goal of linear algebra: understanding the structure of linear operators on finite-dimensional vector spaces. The author has taken unusual care to motivate concepts and to simplify proofs. A variety of interesting exercises in each chapter helps students understand and manipulate the objects of linear algebra.

The third edition contains major improvements and revisions throughout the book. More than 300 new exercises have been added since the previous edition. Many new examples have been added to illustrate the key ideas of linear algebra. New topics covered in the book include product spaces, quotient spaces, and dual spaces. Beautiful new formatting creates pages with an unusually pleasant appearance in both print and electronic versions.

No prerequisites are assumed other than the usual demand for suitable mathematical maturity. Thus the text starts by discussing vector spaces, linear independence, span, basis, and dimension. The book then deals with linear maps, eigenvalues, and eigenvectors. Inner-product spaces are introduced, leading to the finite-dimensional spectral theorem and its consequences. Generalized eigenvectors are then used to provide insight into the structure of a linear operator.

From reviews of previous editions:

“... a didactic masterpiece”

—*Zentralblatt MATH*

“... a tour de force in the service of simplicity and clarity ... The most original linear algebra book to appear in years, it certainly belongs in every undergraduate library.”

—*CHOICE*

The determinant-free proofs are elegant and intuitive.

—*American Mathematical Monthly*

“Clarity through examples is emphasized ... the text is ideal for class exercises ... I congratulate the author and the publisher for a well-produced textbook on linear algebra.”

—*Mathematical Reviews*

From reader reviews:

Dorathy Byers:

Precisely why? Because this Linear Algebra Done Right (Undergraduate Texts in Mathematics) is an unordinary book that the inside of the guide waiting for you to snap the item but latter it will zap you with the secret it inside. Reading this book adjacent to it was fantastic author who have write the book in such incredible way makes the content on the inside easier to understand, entertaining way but still convey the meaning totally. So , it is good for you for not hesitating having this any more or you going to regret it. This unique book will give you a lot of positive aspects than the other book have such as help improving your expertise and your critical thinking technique. So , still want to hold off having that book? If I ended up you I will go to the e-book store hurriedly.

Rose Slagle:

This Linear Algebra Done Right (Undergraduate Texts in Mathematics) is brand new way for you who has interest to look for some information since it relief your hunger info. Getting deeper you into it getting knowledge more you know or perhaps you who still having bit of digest in reading this Linear Algebra Done Right (Undergraduate Texts in Mathematics) can be the light food to suit your needs because the information inside this book is easy to get by anyone. These books acquire itself in the form and that is reachable by anyone, sure I mean in the e-book form. People who think that in e-book form make them feel drowsy even dizzy this book is the answer. So there is no in reading a guide especially this one. You can find what you are looking for. It should be here for a person. So , don't miss it! Just read this e-book type for your better life and knowledge.

Houston Boynton:

That publication can make you to feel relax. This specific book Linear Algebra Done Right (Undergraduate Texts in Mathematics) was multi-colored and of course has pictures on there. As we know that book Linear Algebra Done Right (Undergraduate Texts in Mathematics) has many kinds or variety. Start from kids until teenagers. For example Naruto or Investigator Conan you can read and feel that you are the character on there. So , not at all of book are usually make you bored, any it offers you feel happy, fun and chill out. Try to choose the best book for yourself and try to like reading that will.

Leonard Bartow:

E-book is one of source of information. We can add our understanding from it. Not only for students and also native or citizen require book to know the upgrade information of year to help year. As we know those guides have many advantages. Beside we add our knowledge, also can bring us to around the world. With the book Linear Algebra Done Right (Undergraduate Texts in Mathematics) we can get more advantage. Don't someone to be creative people? To become creative person must prefer to read a book. Just choose the best book that suitable with your aim. Don't always be doubt to change your life at this time book Linear Algebra

Done Right (Undergraduate Texts in Mathematics). You can more appealing than now.
